Dear Parents/Carers

Year 10 Technology & Engineering

The Design and Technology department have always been very proud that students have been able to design and make a wide variety of products from the different technology topics and materials studied in Technology and Engineering.

The department has always tried to use resources that enable the students to create quality items that they would enjoy using and sharing with their friends and families.

As you can appreciate the cost of materials is constantly increasing and although the Technology department pay for the majority of the materials it is unable to sustain this without the contribution made by parents, we are asking for £7.50 to cover the materials that students will use throughout KS4 in Engineering.

In Year 10 students will be completing small projects to build their practical skills which will include the use of metal and electronics. In Year 11 students will be completing their real NEA which is worth 50% of their overall grade, students will be given the theme by the exam board where they will have to make a product that contains electronics and mechanisms.

Payment can be made via the following options:

- Online (via Scopay)
- Cash to the finance office

If you have any questions regarding this payment please do contact me.

Yours faithfully

Mrs S.Turner
Head of Design & Technology

If, at any time, you should require special arrangements to be made when visiting the school and/or in order to participate fully in supporting your child at school (e.g. an accessible venue for meetings, if you are a wheelchair user, assistance with translation of documents or enlarged copies of communications etc.), please do not hesitate to let us know.
