

BIOMETRIC FINGER IMAGING

The Hamble School runs a 'cashless catering' system in the school canteen. Each student has a personal account to fund their food purchases. The students access their account by putting their finger on a 'finger image reader' which is located at two locations.

Please note: We cannot accept money in any of the food outlets.

Students who are entitled to free school meals will automatically have money loaded onto their account on a daily basis. However, they must have their finger image taken in order to take advantage of their free school meal.

Before a finger image can be taken, it is a legal requirement that we must have written consent from a parent/carer.

Money can also be loaded on to lunch accounts using ParentPay, an online system which enables you to make payments via a debit/credit card. Logon details will be provided. ParentPay can also be used to pay for music tuition and trips.

It is very quick to set up and easy to use.

For more information please visit: <https://www.parentpay.com/>
